A choral novel on the hopes, disillusionments and betrayals of family life in Mexico. A rich Catholic rancher wants his four sons to become priests, while the boys themselves have other plans; a bereaved mother explains her daughter's life to the man who killed her; three daughters meet up around their father's coffin for the first time in ten years; a middle-aged couple meet by chance on a cruise-ship and wonder if they were once young lovers. The result is a picture of contemporary Mexico seen through a violently fragmented narrative, not unlike the internationally successful film *Amores Perros*. The stories are punctuated by a chorus, commenting as if in a Greek tragedy, crudely and unsentimentally on the underbelly of modern Mexican life, offering a raw but richly textured glimpse of the inequalities of that society - street children, junkies, dead rock icons, the ideal wife, a honeymoon gone wrong, a child suicide, a man faking his death and beginning a new life - that throw the middle-class dramas of the linked stories into harsh relief. Every Happy Family is a dramatic polyphony of the many conflicting strands of Latin America and the modern urban world.
